DETAILED ACTION

1. Claims 114-130 are presented for examination. Claims 1-62 have been canceled by amendment filed on 2/20/2002, paper # 8. Claims 63-113 and 131-144 have been withdrawn from further consideration due to the restriction/election requirement; however, **these claims need to be canceled in response to this office action.**

2. The reply filed on 2/27/2004 is not fully responsive to the prior Office Action because: applicant failed to correct issues with 35 USC 112 such as claim 114 which recites the limitation "said integrated data". There is insufficient antecedent basis for this limitation in the claim. **Applicant is suggested to review all claims and make appropriate correction as required.** Also, applicant is failed to cancel claims 63-113 and 131-114, examiner has acknowledged that these claims are withdrawn; however, these claims need to be canceled. Cancellation of claims 1-62 acknowledged as stated above. Since the period for reply set forth in the prior Office action has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).

3. The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE

(5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.

4. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
